

湖州优拓塑料科技有限公司是一家集原材料自主生产，模具设计，塑料制品生产为一体的有规模，有实力的综合科技型、创新型企业。东距上海市150公里，南接杭州80公里，北离苏锡常90公里。靠近沪杭高速，毗邻太湖，京杭大运河，地理位置优越，水路交通便捷。

我司引进先进的挤出、造粒设备，年产量可以达到5000吨以上的塑料制品，以配合现代新型塑料制品的发展需求。主要生产和销售各种挤出型材，注塑产品，PVC原料，儿童防护产品，MBBR生物填料等，广泛用于建筑，汽车部件、电器、机械配件、污水处理等行业。目前我司产品畅销北美，欧洲，澳洲，亚洲等地区。

本公司以“绿色 科技 联创 共赢”为企业宗旨，并拥有一批年轻高素质的技术研发团队和业务团队，我们将不断努力，完善自我，服务客户，以专业的技术，优良的品质，合理的价格，以及完美的售后服务赢得你们的信任。我司以专业度和超前度致力于所涉足的领域，为广大客户提供优质的产品和服务。一家集塑料合成、改性，模具制作，塑料制品生产为一体的科技型企业，是您值得信赖的合作伙伴。

COMPANY INTRODUCTION

企业简介

Huzhou You Top Plastic Technology Co.,Ltd is a professional,comprehensive,hi-tech and innovative plastic products enterprise specializing in the independent production of raw material ,moulds design and plastic products manufacture service. It lies 150km to the east of Shanghai,80km to the south of Hangzhou,90km to the north of Suzhou,Wuxi,Changzhou.Also near the Shanghai-Hangzhou express way,Taihu Lake and Beijing-Hangzhou Grand Canal.It is superior in location,convenient in traffic,and complete in infrastructure.

We have advanced extrusion and granulation equipment,and the annual output can reach more than 5,000 tons to meet the development needs of the modern new plastic products. Major production and sales of various Extrusion profiles, Injection products, PVC raw materials, Child protection products, MBBR Filter Media, etc., which are widely used in construction, automobile parts, electrical appliances, machinery parts, sewage treatment and other industries.Currently, Our products have been well selling in North America, Europe, Australia, Asia and other regions.

With the principle of "Environmental,Technology,Innovation,All-win",You Top has a group of young excellent R&D and business team.We are committed to using professional skill, high quality, reasonable price and perfect after-sales service to win your trust. Welcome to visit our company to create the beautiful future.

护角条 Vinyl Corner Bead

产品简介 Product Description

湖州优拓塑料科技有限公司开发和生产的护角/脚线产品，采用了抗寒耐热、无铅环保、能够在室外长期抗老化的PVC全新原材料。这些系列护角产品可以应用在金属板条、砖石、木材、石膏衬板、水泥等建筑材料上。这些系列护角产品通过控制建筑材料的扩张、收缩以及装饰来达到保护水泥墙角的目的。除此之外，PVC护角还将解决了以往金属护角产品在运输途中或现场产生电解、生锈、氧化、过度凹陷等相关问题。

Vinyl Corner Bead accessories are manufactured by You Top, using weatherrable grade, lead free, virgin vinyl compounds, Formulated and tested for exterior use. These accessories can be applied to metal lath, masonry, wood base sheathing products, gypsum sheathing, cement sheathing products, block and any other approved substrate. They are designed to control expansion and contraction, trim, and protect the stucco.

In addition PVC products will solve problems relating to static electricity, electrolysis, rust, oxidation, excessive dents or kinks and damage in transit or on the job site.

用途 Application

发泡三角条 PVC Fillet

建筑三角条 PVC CHAMFER FOR BUILDING

使用方法 Application

特性 Characteristics

防火, 防水, 防腐, 避免打钉造成的产品破损, 避免弯曲造成的产品损坏, 是取代木质三角条的新型材料。
Fireproof, waterproof, antiseptic, No broken by nailing, No broken by Curving, replacing Wood

使用方法 Application

优拓的发泡三角条具有良好的平直度, 无弯曲, 无扭曲的现象。无论您把三角条钉在或者粘在建筑模板上, 请注意让三角条保持一条直线。通常三角条会被用在混凝土模板的各个地方, 比如室外的墙角, 门窗边角, 裸露墙角的顶部等。
You Top been checked for straightness with no curving or bowing along the length of the product.
The fillet must maintain a straight line for either nailing or gluing of the fillet in formwork.
Chamfer strip is a triangular strip of rigid PVC or Foam PVC, nailed to concrete formwork in various places: outside corners, around window or door openings, at the top of an exposed wall, etc.

除水片 Advanced Water Mist Eliminator

产品简介 Product Introduction

工作原理 Working Principle

除水器/除雾器(PVC)的工作原理就是将冷却塔里面的小水滴中的湿热空气分离出去,从而避免环境中的污染和冰冷的水雾,是一种节水 and 环境保护设备。

它广泛应用于火力发电厂、钢铁厂、石化厂、和其他工业部门机械通风和自然通风的冷却塔。在实际操作过程中,它设计先进,质量可靠,效果显著,安装方便,使用寿命长。

Advanced Water Mist Eliminator(PVC) is deducted the hot humid air from the midst of the small droplets drift in cooling Towers, to avoid things around the environment pollution and icy water mist, water saving and environment protection device.

It Widely used in thermal power plant, steel plant, petrochemical plants, and other industrial department mechanical ventilation and natural ventilation cooling tower, in practice that Eliminator has advanced design, reliable quality and effect significantly, easy installation, long service life

物理性能 Physical Properties

序号 NO.	项目 Properties	符号 symbols	单位 Unit	PVC 指标 Value	检测方法 Test Method	
1	密度 Density	ρ	g/cm ³	≤1.60	GB1033-86	
2	吸水率 Water Absorption	Wpc	%	-	GB1034-86	
3	尺寸变化率 Dimensional Change Percentage	M	%	≤5.0	-	
4	拉伸强度 Tensile Strength	老化前 Before Aging	σ _t	Mpa	≥45	GB13022-91
		老化后 After Aging				
5	断裂伸长率 Elongation at Break	Σl	%	≥40	GB13022-91	
6	缺口冲击强度 Notch(ed) Impact Strength	老化前 Before Aging	α _t	10 ³ kJ/m	≥45.0	GB1843-96
		老化后 After Aging				
7	维卡软化温度 Vicat Softening Temperature	Tv	℃	≥82	GB1633-79(88)	
8	氧指数 Oxygen Index (OI)	OI	-	≥40	GB/T2406-93	

优势 Advantages

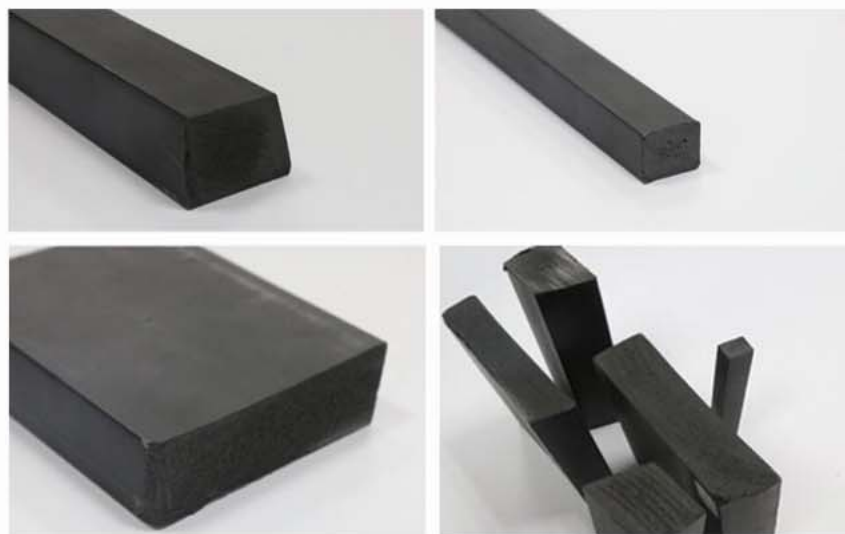

1. 连续的挤出工艺创造了壁厚均匀的形状
2. 特殊的空气轮廓和光滑的表面创造了较低压力环境
3. 由于采用了防腐性能稳定的塑料材料,能让产品的使用时间更长。
4. 轻便,便于搬运
5. 在3米以上高度使用时无需任何支撑。

1. Manufactured through continuous extrusion process gives uniform thickness to eliminator profile.
2. Lower pressure drop due to special aerodynamic contour and smooth surface.
3. Longer life due to corrosion resistant plastic material
4. Light weight so easy to handle.
5. Up to 3 mtrs height no intermediate support is required.

使用案例 Application Cases

汽车塑胶配件 Plastic and Rubber Products Accessories for Car

产品描述 Product Description

汽车尾门沿板或隔热板

产品分PS材质,主要用于汽车尾门,不可视,产品密度轻,刚性好,耐化学性能好,有优良的绝热和绝缘性能。

Car tailgate along the plate or insulation panel

The product is made of PS material, which is mainly used for the automotive tailgate, invisible, light density, rigidity, good chemical resistance, excellent thermal isolation and insulation properties.

产品描述 Product Description

汽车配件

产品为pvc材质,主要用于汽车门窗上边框,产品具体耐寒性能好,耐温性能高,环保冲击性能佳等优点,广泛应用于汽车行业。

Auto parts

The product is made of pvc material, which is mainly used for automobile window and door frame, with cold resistance, high temperature resistance, good environmental performance, etc., should be widely in the automotive industry.

交通设施 Traffic Facilities

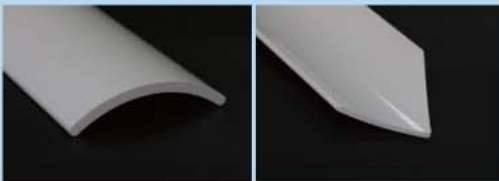

产品描述 Product Description

反光道钉轮廓标

在临时性道路表面突起反光轮廓标已达到为行驶车辆减速指引的目的

Traffic Safety Contour Mark

It can appear reflective delineator(Traffic Safety Contour Mark) for the vehicle to slow down in the temporary road surface.

产品描述 Product Description

产品分为柱(片)式轮廓标、梯形轮廓标和长方形轮廓标,采用日本技术制作的棱镜式反光片固定其他材质上,柱(片)式轮廓标用于路边无构造物的路段,梯形轮廓标和长方形轮廓标用于护栏,侧墙及隧道等,起提醒和警示的作用。

规格:

柱式轮廓标:单面、双面125×125×1250mm

片式轮廓标:1100*100mm、1650mm*91mm

梯形轮廓标:单面 50×70×120mm

Product description: Delineator

Products are divided into columns (chip), trapezoidal and rectangular delineator, using Japanese technology to produce prismatic sheeting fixed on other materials, column delineator is apply for roadside where is no road construction, trapezoidal and rectangular delineator are apply for guardrails, side walls and tunnels. In order to achieve a reminder and warning role.

Specification:

Column delineator: single-sided, double-sided 125 × 125 × 1250mm

Chip Delineator: 1100 * 100mm, 1650mm * 91mm

Trapezoidal delineator: single-sided 50 × 70 × 120mm

产品描述 Product Description

pvc伸缩管

产品为pvc伸缩管,采用pvc材质,主要用于路边无构造物的路段或者用于电力拉线护套,起提醒和警示的作用。

PVC telescopic pipe

The telescopic pipe is made of PVC material, which is mainly used in the roadside where is no road construction or for power cord sheath. In order to achieve a reminder and warning role.

规格 Specification

φ 38*1.2mm、35*1.2mm、32*1.2mm

产品描述 Product description

pvc实心棒

产品为pvc实心棒,采用pvc材质,主要用于交通配件。

PVC solid rod

The solid rod is made of PVC material, which is mainly used in transportation accessories.

Specification:

居家微装饰的领导者 —— 您的儿童防护专家

Home Micro Decoration Leader —— Your Child Protection Expert

微装饰

Home Micro Decoration

产品简介 Product Introduction

家是停泊的港湾,幸福的源泉,生活的动力,所以居家微装饰的意义在于营造一种温暖,安全的气氛,优拓的防护条系列既能给你带来莫名的好心情,也能带来不俗的感觉。除此之外儿童防护也是各位家长非常重视的问题,优拓塑业在现有的家庭装饰防护的基础上,设计了几款针对宝宝贴心呵护工具。

Home is the warm harbor, the source of happiness and the power of life. So the significance of home decoration is to create a warm and safe atmosphere. The series of You Top corner bead can bring you a good mood. In addition, the products of children's safety is also a very important issue for all parents. You Top has designed several models for the baby care on the basis of the existing home decoration protection.

优拓护角的特性 Characteristics

低调的自然 Low-Key Nature

它是简单的,低调的,质朴的,但却有着难以言语的自然之美
It is a simple, low-key, but it has untold natural beauty

多重保护墙角 Function Storage

让您的家居生活拥有更多的方便、舒适、简单

Make your own home life more convenient, comfortable, simple

默默的保护着 Silent Guardian

默默保护宝宝不受伤!

Silently protect the baby is not injured!

为何使用墙护角? why use the wall corner

1. 搬家居时碰到墙角在所难免,破坏了墙面美观就大大打折了。
2. 家里孩子整天满屋子跑,一不小心心碰到墙角,心疼的可是你哟。护角则能起到撞机的缓冲作用
3. 墙角经常手扶,雪白的墙面则会留下污点,时间长了则会乌黑一片,而墙角则易于清洁
4. 家装有时墙面只有一个颜色,缺少画蛇点睛的装饰,而带有花色的护角则能起到艺术点缀。

1. The wall corner will be inevitable damaged when we moving the furniture
2. The wall corner can be impact buffer once a accidentally Children touch in the corner
3. The snow-white wall will leave stain without wall corner
4. Our color corners art ornament, more beautiful and fashionable

防护条/护角条 Corner Bead

儿童防护产品 the products of children's

防触电安全插座保护盖

SAFETY SOCKET PROTECTIVE COVE

将保护盖口在电源口,即可防止宝宝因为好奇触摸电源导致触电。

The protective cover is inserted in the power outlet, to prevent the baby touch the power due to curiosity.

防撞条

PROTECTION STRIP

防止宝宝因玩耍时,尖锐物品如柜子、茶几等对宝宝身体带来的伤害。

To prevent the baby is hurt by sharp objects (such as cabinets, tables and etc.) while playing.

门夹锁

DOOR CLAMP LOCK

套在门上,既保证门可以活动,也可以不会关闭。保证宝宝不会被门夹到手。

Set it on the door, not only can ensure the door is moved, but also can not be closed. To prevent the baby is jammed from door.

儿童门夹

CHILDREN'S DOOR CLAMP

塞在门缝下面,将门卡在一个位置,不让门移动,减少宝宝被门夹住的几率。

To put it under the door, then the door will be stucked in a position to prevent movement. It can reduce the chance of the baby being jammed by door.

YOU TOP PLASTIC

防火密封条 —— 您的科技防火卫士
Intumescent Seal —— Your technical fire guardian

防火密封条 Intumescent Seal

产品简介 Product Introduction

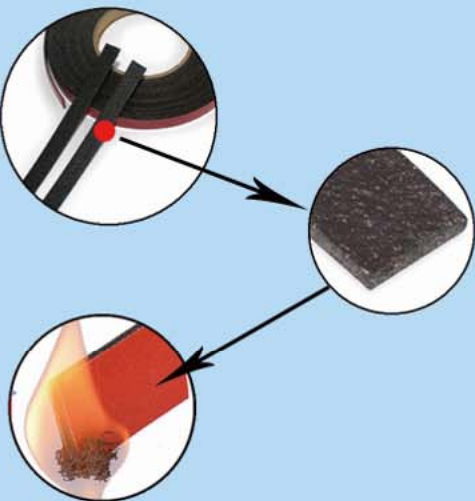

当我们组装在门框和玻璃配件中的防火密封条遇火后，由于密封条自身体积的快速膨胀从而阻隔火焰、烟雾、有害气体。优拓塑业雄厚的生产能力和技术力量能够满足各种代加工和零售需求，防火密封条主要供应给防火门的生产组件制造商。无论对于木材、钢材、或者其他复合材料的门框结构，优拓密封条都可以在有限的高压、高温空间里通过自身膨胀阻隔火焰、烟雾、有害气体。体积的膨胀倍率甚至可以达到6-30倍。优拓密封条以硅酸钠为基础原料，这种材料防潮、防霉、无毒、无害、稳定性和耐久性强。

The intumescent Seal that expands in a fire to seal door frames and glazing applications to help prevent the passage of fire, smoke and toxic gases.

You Top has a large range of intumescent seals to suit the OEM and retrofit aftermarket. Intumescent seals are predominantly used in door assemblies manufactured by fire door manufacturers where they incorporate You Top sealing systems into the door set prior to leaving the factory.

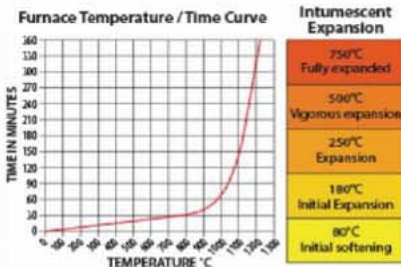

Used in fire door assemblies of timber, steel or composite construction, You Top intumescent expands rapidly to many times(6-30 times) its original size upon contact with fire. It concentrates high pressure in confined spaces, exfoliates slowly to protect itself once activated and has good insulation properties. When correctly positioned in the door leaf or door frame margin, the seals expand when activated to prevent the passage of flames, hot smoke and fumes from one compartment to another.

Unlike sodium silicate based material, You Top's unique intumescent is unaffected by water making them ideal for application in damp or humid environments. The intumescent is clean, non-toxic and displays outstanding durability and reliability.

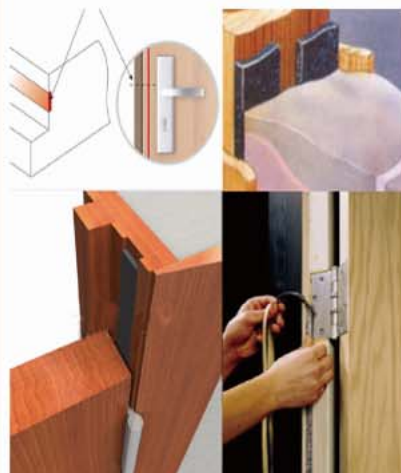

技术性能 Specification

NO.	Test Properties	Standard	Specification
1	Surface Finish	GB18807-1999.6.2	The surface is smooth, flat, no break lines on it
2	Intumescent Temp	6.3.1	Started temp: ≥130°C The main part temp: 300°C-400°C
3	Linear intumescent times	6.3.2	≥30 times of original
4	Fire Resistant	6.4	Oxygen index ≥30
5	Water Resistant	6.5.1	No melt and lique, weight lost ≤5%
6	Acid Resistant	6.5.2	No melt and lique, weight lost ≤5%
7	Alkali Resistant	6.5.3	No melt and lique, weight lost ≤5%
8	Smoke Resistant	6.6	no smoke leak after intumescent
9	Shore A hardness	6.7.1	60S degree
10	Tensile Strength	6.7.2	≥7MPA

使用照片 Application

MBBR生物填料 —— 您的最佳污水处理媒介
MBBR Bio Filter Media —— Your best sewage treatment media

MBBR生物填料 MBBR Bio Filter Media

产品简介 Product Introduction

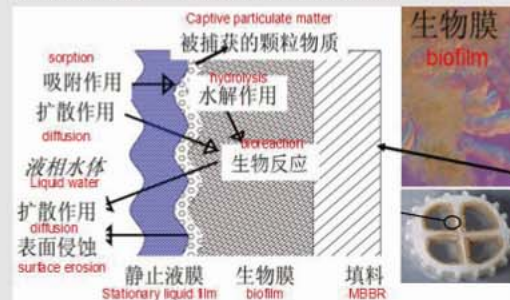

优拓移动床生物膜反应器 (MBBR) 技术采用生物膜原理，并结合了传统流化床的优点，是一种高效的生物处理工艺。MBBR工艺通过向反应器中投加一定数量的悬浮填料 (生物膜载体)，在填料的受保护面积上，不同的微生物 (从细菌到纤毛虫再到轮虫) 集中在生物膜上，在悬浮活性污泥与悬浮载体表面的生物膜共同作用下，大大提高系统的抗冲击负荷能力，达到提高污水处理的效能和稳定出水水质的能力。优拓公司材质为：HDPE，食品级高密度聚乙烯。常规产品比重为：0.96g/cm 可针对不同废水性质定制不同比重的MBBR填料。

You Top MBBR filter media is a novel biologically active carrier, it adopts scientific formula, depending on the nature of water, blending a variety of beneficial microorganisms grow quickly attached trace elements in polymer materials, through a special process modification, constructed, with more than large surface area, hydrophilic, high biological activity, biofilm fast, good effect, good impact resistance.

You Top MBBR material: HDPE
Density: 0.96g/cm
It can customize different density MBBR bio media according to different waste water.

MBBR生物填料 —— 硝化与反硝化

MBBR bio media —— Nitritation and Denitrification
